

Claims

What is claimed is:

- 5 1. A double stacked truck system for skateboards comprising:
 a first truck attached to a base plate mounted on an underside of a skateboard at
each end of the skateboard, the first truck comprising an adjustable kingpin and grommet
configuration, the first truck reduced in height by having no axle;
 a second truck attached to the first truck, the second truck comprising an
10 adjustable kingpin and grommet configuration and an axle and pair of wheels so that the
first and second truck combine to create a stacked truck having two cooperative kingpin
and grommet configurations for a single axle and pair of wheels.
2. The system of claim 1 wherein the kingpin of the second truck further comprises a
15 pivot end insertable in the base plate.
3. The system of claim 1 wherein the first truck and the second truck are welded
together.
- 20 4. The system of claim 1 wherein the first and second trucks have similarly angled
kingpins.

5. The system of claim 4 wherein the first and second trucks are both regular type trucks.

6. The system of claim 4 wherein the first and second trucks are both Randal type trucks.

7. The system of claim 1 wherein the first and second trucks have differently angled kingpins.

8. The system of claim 7 wherein the first truck is a regular type truck and the second truck is a Randal type truck.

9. The system of claim 7 wherein the first truck is a Randal type truck and the second truck is a regular type truck.
